RURAL HOUSING AGREEMENT

As is normal practice when selling land in community ownership, there will be a Rural Housing Agreement put in place for each plot. This is to protect the release of community land from speculators and to ensure its use benefits the wider community. The agreement is being used here so that future houses built on the site are not developed as holiday accommodation.

The purchaser of the plot retains 100% ownership

Key facts

- The first purchaser is offered an agreed discount on the open market value of the plot. This value will be recovered from any future sale of the property during the term of the agreement
- The agreement is active for a 10 year period
- The North Harris Trust has the right to buy back the site. This may be removed when the build reaches an agreed stage
- Successful purchasers are expected to develop the site within 3 years of purchase
- There is an agreement between NHT and the owner that the property must be the owner's sole and main residence and not used as a holiday home
